Dear Mr Pedersen

I am a Director of Lightning Export. I was Export Manager at Lightning Distribution when the company released Laserdisc. I hereby confirm the authenticity of the statements made in Lightning's catalogues as of November 1988 and September 1985. Specifically I confirm that Laserdiscs released through Lightning was released without restrictions regarding rental and sale in the U.K.

To the best of my knowledge there has never been any objections to rental of videos in England as long as they are genuine and legally manufactured.

Yours sincerely

Graham Lambdon
